

ALWAYS THE RIGHT TURN: THE STANDARD AND CUSTOM SOLUTIONS BY LÜBBERING.

BASIC-LINE		<ul style="list-style-type: none"> • Design: closed and open • Accuracy classes $\leq \pm 10\%$ or $\pm 15\%$ • Performance classes: of 5 Nm to 480 Nm • 3 gear stages / lengths • Special sizes on inquiry • with hold-and-drive function available
HIGH-LINE G		<ul style="list-style-type: none"> • Accuracy classes $\leq \pm 7\%$ • Performance classes: of 5 Nm to 480 Nm • 3 gear stages / lengths • Special sizes on inquiry • Optional: with hold-and-drive function
HIGH-LINE W		<ul style="list-style-type: none"> • Accuracy classes $\leq \pm 3\%$ • Performance classes: of 17 Nm to 350 Nm • 3 gear stages / lengths • Special sizes on inquiry • Output socket guided by ball bearing • Optional: with hold-and-drive function
IN-LINE		<ul style="list-style-type: none"> • Design: closed and open • Accuracy classes $\leq \pm 10\%$ or $\pm 15\%$ • Performance classes: of 5 Nm to 150 Nm • 2 gear stages / lengths • Special sizes on inquiry • Optional: with hold-and-drive function
AERO-LINE		<ul style="list-style-type: none"> • Accuracy classes $\leq \pm 7\%$ (HD-Serie), $\leq \pm 10\%$ • Performance classes up to 1,000 Nm • 3 gear stages / lengths • Special sizes on inquiry

VARIO-LINE ANGLE HEADS		<ul style="list-style-type: none"> • Accuracy classes $\leq \pm 10\%$ (i.c.w. geared offset heads – HD-Serie) • Performance classes: 26 Nm to 214 Nm at 90° 26 Nm to 118 Nm at 110°
HOLD-N-DRIVE		<ul style="list-style-type: none"> • Holder unit • Screwing and counter-holding simultaneously • Fitted with a changeable bit-holder
MULTI-LINE		<ul style="list-style-type: none"> • Hold-n-Drive angle head • 90° Design • Individual output: • Rigid, springy counter unit with bit-holding-system • Rotating output nut • Accuracy classes $\leq \pm 5\%$ • Performance classes: of 30 Nm to 320 Nm • Connectable to standard straight spindles and pistol grip machines / screw spindles • Adaption via plug-in gearing, safe and eightfold adjustable • Optional: Springy output nut
SPECIAL-LINE		<ul style="list-style-type: none"> • Design: closed and open • Accuracy classes $\leq \pm 3\%$ bis $\pm 15\%$ • Performance classes: 0,5 to > 1,000 Nm • Special models • Customized design
ACCESSORIES		<ul style="list-style-type: none"> • Individual application • Customized design
